

LED Flashing Chevron

Night Beams'™ emergency directional flashing arrow is the highly-visible, effective way to let motorists know to go around you when you are stopped roadside. The perfect solution to help you during roadside troubles, the emergency flashing direction arrow can instruct vehicles to go around while saving your car battery from draining.

FEATURES INCLUDE:

- Holds up to all types of weather
- LEDs have 100,000-hour lifetime, and batteries may be changed when needed
- 28 Super Bright red LEDs give visibility for up to ½ mile
- Powered by (3) AA batteries
- Attaches to any metal part of the vehicle. Turn upside down to reverse direction of flashing arrow
