

LED Flashing Triangle

The Night Beams™ LED triangle is an effective way for you to send bright lights through the dark to alert approaching drivers to move over. Whether it's from a flat tire or engine issues, when you're on the side of the road, you can adequately protect yourself with the flashing triangles from Night Beams™.

FEATURES INCLUDE:

- Designed to withstand any weather
- Visible over ½ mile in darker hours
- Built to be outside and constructed with a solid base
- Constant On, Flashing, or Off
- Battery provides up to 10 hours per charge with a 2-hour charging time
- Charging cord and Triangle storage case included
- LED Triangle exceeds federal safety standards
